## 1. FEATURES

The purpose of this memo is to describe the availability of every item in the specifications sheet.

- Showcase top 3 rated OU and SU profiles

This feature is one of the most powerful of this system since it showcases all of the highest rated users.

- Showcase top 3 rated projects

Also like the top rated users, the top rated projects displays the power of the system.

- Give visitor option to register to be OU

When a user visits the program, they are allowed to register into the program and become an ordinary user.

- Make SU check info for visitor

Once a visitor has registered, a notification is sent to the SU to view the details of the newly registered person.

- If Approved, send email with account id and password

The SU can decide if to approve or deny the newly registered visitor.

- Group private and public settings

Groups can be private or public depending on what you want it to be.

Also, if you're not part of the group then you cannot see some of the group's features.

- Invite people to group

Invite people to group with create a group button.

- Issue warning or praise to a group member

You can create a vote to give praise or warn another group member.

Once everyone votes, notification is sent to SU.

- Meet up scheduling

You can create a poll to pick a time to meet up with other members.

- Group Closure and Kick

You can create a vote to kick a member out and close a group.

Once everyone has voted, a notification is sent to SU.

- Once group formed, page will be available to group members

Once a member has been invited to the group, the pages will appear on their profile.

- Track record of tasks that have been done

Tasks or ToDo's appear on the groups page and are kept track of for all members. You can decide to complete or cancel a task.

- OU with 30 rep score becomes vip

The state of a user changes when the reputation score becomes 30.

- Complain to SU about a group or OU

You can give a complaint to a SU regarding any user/group.

- Taboo word list conversion

Posts in the chat have taboo words converted into asterisks and must refresh the screen to reflect the conversion.

- Rep score decrease by 1 if bad word used for the first time

- Rep score decrease by 5 if bad word used again

- Send Compliment and increase rep

You can send a compliment to an OU and their rep score will increase.

- VIP with lower than 25 becomes OU

Status of a user changes if they're VIP and it drops below 25.

- OU with negative rep score will be removed from system and put into black-list automatically

If an OU has a negative rep score, they will be blocked from entering the system.
